Hettich

Top runner in its class: Quadro drawer runner

- ▶ Give drawers silky smooth running performance
- ▶ Design furniture that's made to last with strong, sturdy fittings
- ▶ Benefit from a wide variety of applications

Quadro partial extension runner
with height adjustment

Quadro full extension runner
with height adjustment

Quadro full extension runner with
height, side, tilt and depth adjustment

Give drawers silky smooth running performance:
Quadro drawer runner

Integrated features for a feel of luxury:

- Silent System for gentle closing performance or
- Push to open opening system for purist furniture design

Special Quadro profile geometry for good tracking and stability

No maintenance steel ball bearings for lasting user convenience

High precision runners guarantee balanced, smooth running action

Smooth and secure: the optional locating catch prevents the pull-out shelf from gliding back in unintentionally.

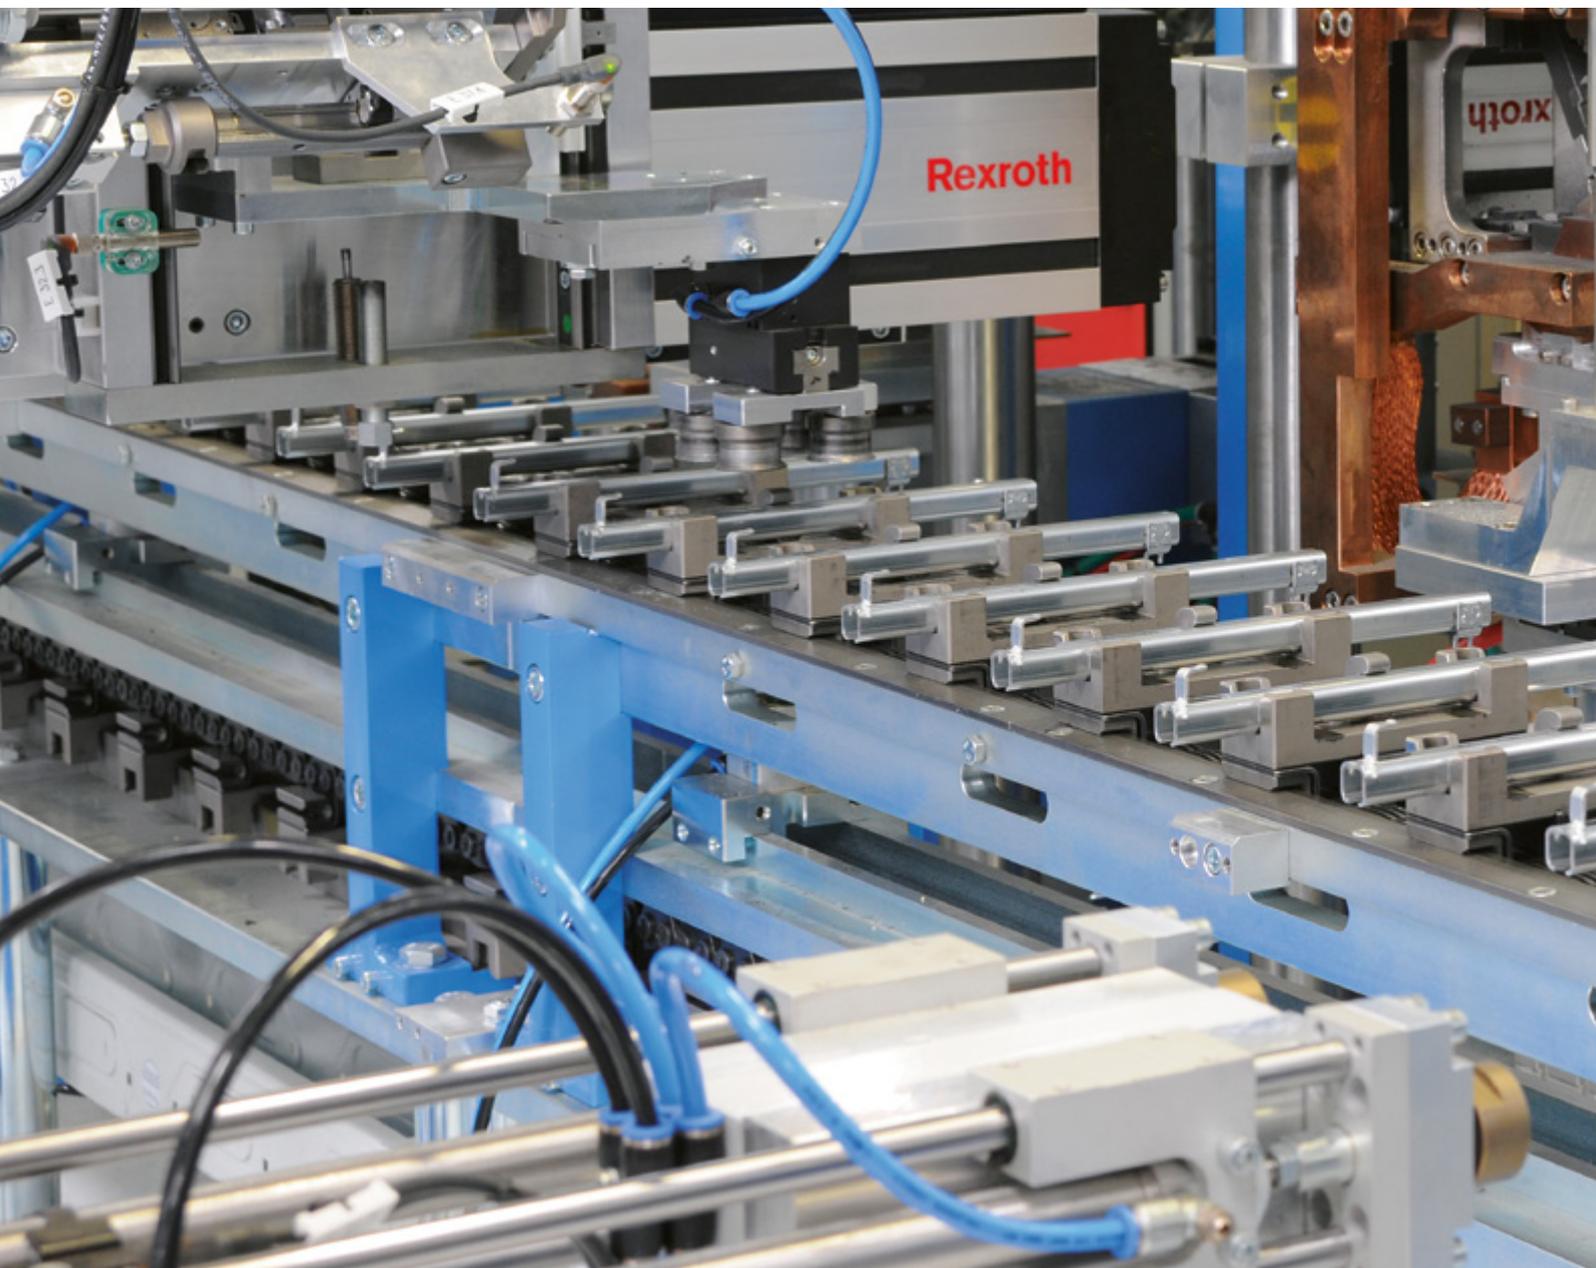

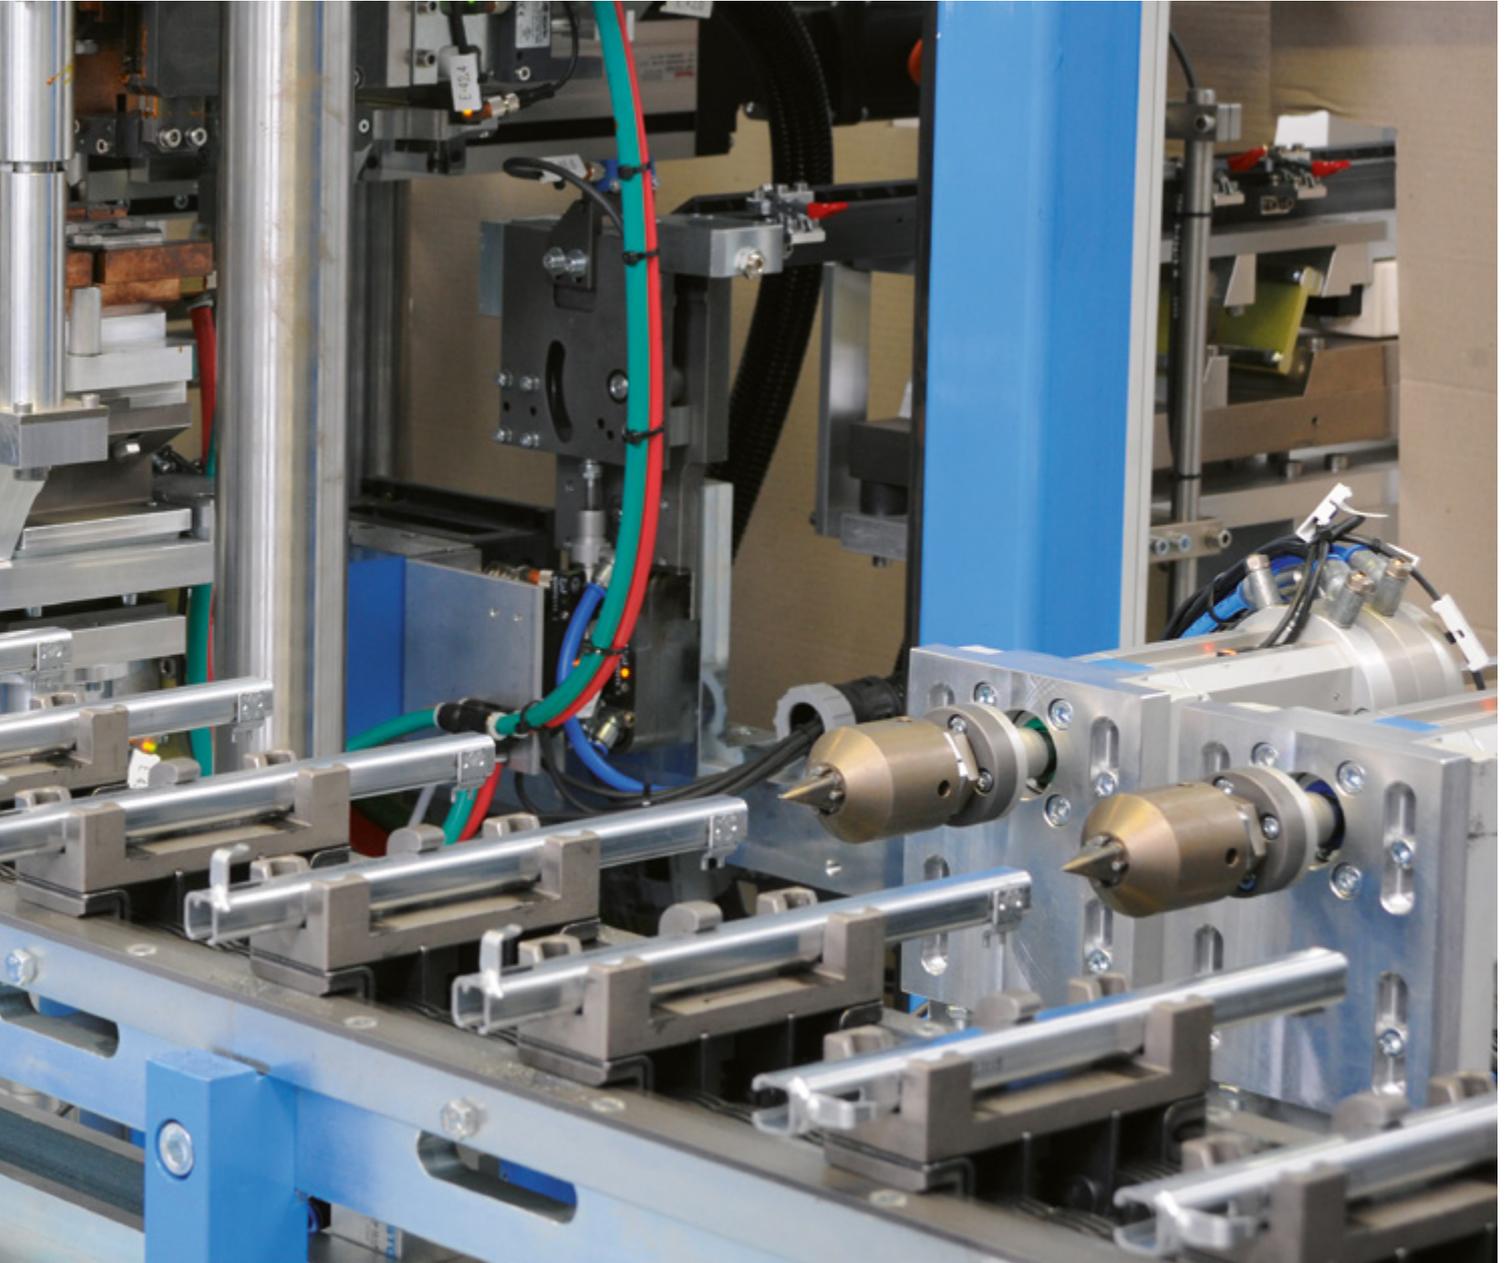

Even heavily laden, Quadro provides easy action and smoothly gliding performance. Forces acting on it are taken up on all sides by the special profile geometry – making sure that Quadro provides high vertical and horizontal stability.

Design furniture that's made to last with strong, sturdy fittings: **Quadro drawer runner**

There's more than the high precision steel ball bearing behind proverbial Quadro quality:

- ▶ Reliable, highly automated production for consistent quality
- ▶ In addition ensuring compliance with relevant standards, strain, safety and climate chamber tests guarantee high practical benefits
- ▶ Many years of market and product know how
- ▶ Professional quality management that also includes motivating staff and giving them the qualifications they need

Benefit from a wide variety of applications:
Quadro drawer runner

Enjoy handleless furniture design: Quadro drawer runner

Handleless, simple, good:

Push to open integrated into the Quadro runners makes it particularly easy to design handleless furniture

Effortlessly handleless:

Push to open Silent for Quadro 4D V6 closes softly and gently, with pushing energy storage system supporting slow closing action

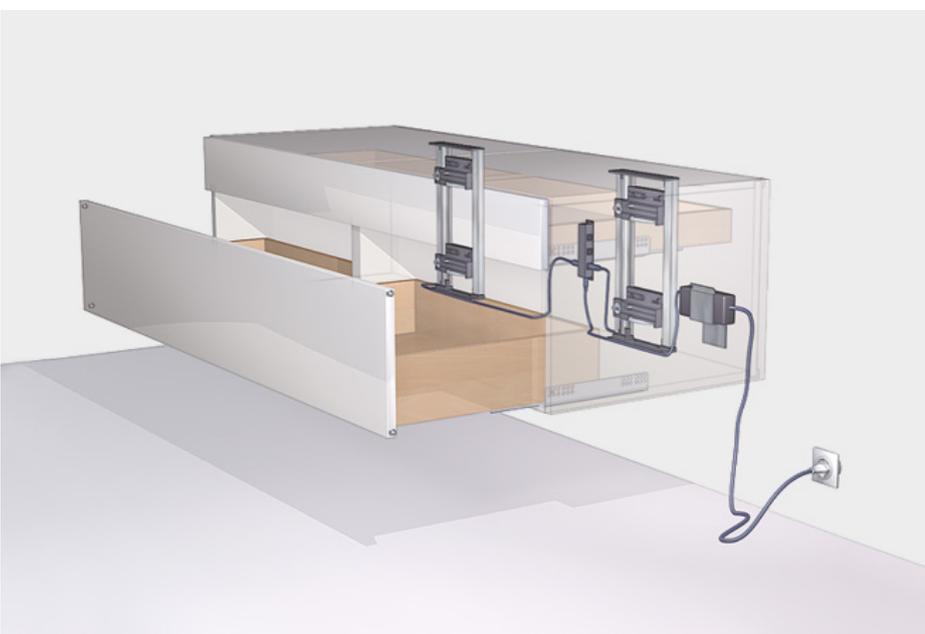

Great design option:

Multi synchronisation for Push to open and Push to open Silent permits opening reliability for two drawers connected by one front panel.

Versatile use:

Special adapter also provides synchronised opening for asymmetrical pull-outs and ones with U-bend cut-out.

Luxurious opening:

Electromechanical Easys combines convenient opening and closing with intelligent collision prevention between diagonally opposite cabinet bodies

Assembly aids for any need: Quadro drawer runner

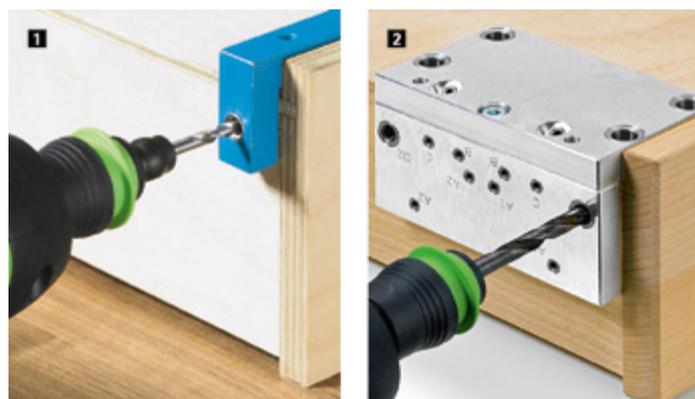

BlueJig Quadro EB 20 Start

- ▶ For drilling the hole for the C hook
- ▶ For marking the holes for catches for pull-out shelves / wooden drawers with flush bottom panel
