Technik für Möbel

Hettich

Hettich Manufacturing Unit at Vadodara, India

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a centre of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high-quality furniture fittings, with over 6,000 employees in more than 100 countries.

The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

Hettich – an Indian success story

Hettich started operations in India with the dawn of new millennium. In the short span of 19 years, the company has gained the undisputed leadership position in the Indian furniture fittings & hardware industry.

Hettich India prides itself on having most of the major hardware dealers in India as its trade partners across the country. These dealers are spread over all important cities and towns, so that they are within easy reach of the customer. Hettich India delivers complete "peace of mind" to the Indian furniture manufacturing industry. We have a strong reputation for providing high quality and high tech products. Our products are backed by pre- and after-sales service and on-time deliveries, and by value adding services like design and installation support.

Quality

Hettich products stand for high quality. Once assembled, our fittings function perfectly day in, day out. High quality products and processes confirm our sense of value, our self confidence and our image. The way to our quality goal is for each one of us to cultivate an intense quality awareness.

Innovation

The right balance of continuity and innovation generates trust in the Hettich brand. We offer timely, high-value solutions for today's furniture; at the same time, we identify and shape the trends of tomorrow. We review and improve existing solutions ready for the future. Driving innovation is our capacity for looking at things from new angles.

Closeness to customers

For us closeness to customers implies sharpened awareness, attention to detail, a grasp of complex challenges, and efficiency in production and logistics. We know our customers. We're there when our customers need us! The keynote of our partnership with our customers is direct, person-to-person communication.

Reliability

Quality, innovation, closeness to customers – they're nothing without reliability! Reliability encompasses the durability of our products and the reliability of Hettich people – each and every one of us. The solid basis for reliability is robust and stable processes.

Looking for perfect Furniture Fittings solution. A dedicated team of highly qualified professionals is at your service to provide the perfect furniture fittings solution to suit your need and budget at zero cost to you.

Hettich Customer Care Service:

In today's fast paced and technologically advanced era, most of the organizations succumb to the pressure of staying ahead in the competition and often, end up neglecting the most critical aspect of business i.e. CUSTOMERS. Hettich, being a CUSTOMER CENTRIC organization, is very sensitive towards this tendency; hence, we constantly try to provide the best and quality driven products and services.
